Slaughterhouse Build – Tender for work

The Government of Sark wishes to invite tenders for building and associated works for construction of a new slaughterhouse at Les Laches. The building works package will include temporary site facilities, site preparation and levelling, drainage, foundations, floor slab, assistance with the erection of a steel frame building, services supplies to the building (electric and water), electrical water, heating services within the building. The building/construction company selected will act as the Main Contractor for the site and will work with the Project Manager appointed by the Government to coordinate the specialist contractors who will be required for the facility (including the shell building, refrigeration, panelling, flooring, etc.). A set of design drawings will be provided that have been approved by the relevant authorities together with structural designs for the building and foundations.

Those wishing to tender are to provide their contact details to CSO Emma Fawson, Government of Sark, La Chasse Murette, Sark. GY10 1SF.

Closing date for applications: 10th February 2019
